## Update

Dear Resident,

I am writing to provide you with an update on our continued regeneration plans for your local community.

You may recall I wrote to you back in June to advise our contractor, Halsall Construction, had gone into administration and was therefore no longer able to work on the project.

While there was a pause in work following this news, in recent days you may have seen some new activity on site with ground workers beginning a clear up of the area.

I am pleased to say this is the start of work for a full return to site. In the coming weeks generators will be delivered, and a full clean-up of the site will allow us to start erecting scaffolding and constructing the concrete frame to the building.

We apologise again for the pause in the project and would like to reassure all residents we remain fully committed to the regeneration of Barne Barton.

We will continue to provide you with updates on our progress and future plans. In the meantime, if you have any comments or questions, please email me directly at [john.hanson@sanctuary.co.uk](mailto:john.hanson@sanctuary.co.uk).

Yours sincerely,

**John Hanson**

**Director – Regeneration**
